

F. H. FALL

1886—Born at Lawrence, Mass., February 28.

When six months old moved to Bradford, Mass. Attended grammar and high school. Worked on Saturdays and during vacation.

After finishing high school attended Waltham Horological School to take up the study of watchmaking, engraving and optics.

For three years was in the finishing department of Waltham watch factory. At the same time with the assistance of a partner established a watch repair school and did remarkably well. The partners started in the jewelry business at Jamaica Plain, a suburb of Boston, but discontinued it after a short time, it being a good thing for one only.

At Elgin, Ill., entered the finishing department of the Elgin Watch Co. After being there for about one and a half years things were quite dull, the factory working only four days a week, resigned and went to Waukegan, Ill., and obtained a position in a jewelry store.

While there, met the manager of the F. W. Woolworth Company's store. Was encouraged to enter into that line of business. The first year in Gary, Ind., was very trying under a stern man, but the training was good. Was there a little over a year, then transferred to manage store at Oskaloosa, Ia. After that managed Ottumwa and Dubuque, Ia., stores.

1912—Called east on account of mother's health. Was transferred to the Boston District where remained only a short time and resigned.

Later started with the Metropolitan 5 and 10c stores and was sent to Syracuse, N. Y.

After a few months, had the opportunity to come with the S. S. Kresge Co.

1920—Manager store No. 118, Amsterdam, N. Y.
